# DIRECTOR

Dear School Leavers of Batch 22

Congratulations to all the school leavers!

Time has come to you to graduate. When you leave MYC, you are leaving with knowledge in skill and with many talents. Don't bury your talents that you have gained in MYC but use it and share it with others. Be generous, kind and helpful to others. With skills, good discipline and character you can go the distance and be whoever you want to become.

You have worked hard and overcome many challenges to reach this milestone. As you embark on this new chapter of your life, remember to stay true to yourself, follow your passions, and never stop learning. The future is bright and full of possibilities for each and every one of you. Best of luck in all your endeavours!

Congratulations once again, and all the best for your future endeavours.

God bless all of you.

## Leavers Batch 22

Time passes without our realizing it. It passes us by not whispering to us to tag along with it. Instead, it is we who are in need of constant reminders that we are in need of time for everything not to be bound by time.

I believe, as a student at MYC there are many times that you may have let the time just pass you by and forget to notice or even purposely ignore it at times. I/We used to remind all of you leavers that you have to learn and relearn everything about life because we humans need to up-skill ourselves with the current situation or otherwise we will be redundant.

As we write this leaver message to you, we are enthusiastically hoping that this message can be a reminder to you again and again. For we will "never" again anywhere guide you as how you were "guided and cared for" when you were our trainees. We hope our message is loud and clear to all of you, and please remember "While you were in Montfort as students, we used to call you 'Boys'. On the other hand, we also reminded all of you that, the moment you become a graduate then you are no longer a boy but a 'Man'. A man who would be transformed in your attitude that represents one hundred percent of all the other characteristics within yourself.

Last but not least we the Members of the Admin Staff would like to take this great opportunity to wish all of your graduates, all the best in your future endeavors! Rain or shine, life must go on until the end naturally, and remember that there is no shortcut in life.

Thank you and May the Lord Bless all of you throughout your life's journey.

# PASTORAL CARE UNIT

Congratulations to all of you. You have made it. You all have completed 2 years in Montfort Youth Centre. We hope that all of you will be successful and will contribute back to the society and to those who need your help and guidance.

All the best to all of you. What you have learned at MYC is the basics in life, hope you all will continue to learn more not only in skills but how to be a successful person in life. Be humble and true to yourself. Practice what you have learned in life and try to learn more each day.

Peace be with you always.

# GENERAL STUDIES DEPARTMENT

To All Batch 22, School Leavers,

We anticipate virtue and happiness to prevail throughout your lives. The knowledge you have received from us should light up your paths as you venture new horizons. The hands of God will be upon you always. Remember that instructors from MYC are always praying for your well-being and hope that you will be successful in your endeavors. Uphold the integrity showered upon you by MYC. It should be your reference before making any decisions. Good Luck! May God bless you all forever.

With love from,

Mr. Xavier George Soosay  
Ms. Linda Dominic

# STUDENT AFFAIRS DEPARTMENT

TO ALL SCHOOL LEAVERS OF BATCH 22,

You have come to see your crossroads. Just to remind you that life is not a competition with others, but a journey to become the best version of yourself. As you embark on that journey you will grow and become better. Always be grateful to the ones who helped you along the way.

Put this in your minds that opportunities don't happen but you can create them. As you live your passion always put your family first and then work super hard. Without their guidance and blessings you would not be what you are now. Remember always that success is getting what you want and happiness is wanting what you get.

We have only one big wish, " All the best and keep moving forward." Nothing is more superior, "God Alone"

Ms. Ros - Opportunities don't happen, you create them.

Mr. Samuel - All the best and keep moving forward

Mr. Shaun - Grow yourself & be better. Remember the ones who helped you along the way.

Ms. Julie - Success is getting what you want; happiness is wanting what you get

Mr. Abraham - Always remember, life is not a competition with others, but a journey to become the best version of yourself.

Ms. Mimin - Love your family, work super hard, live your passion.

# INFORMATION TECHNOLOGY DEPARTMENT

Congratulations Batch 22, we wish you success and happiness in all you do. We know how hard you all have worked throughout your time at MYC, and we are so proud of you all. Despite these challenges, or more accurately because of them, you are stronger. Challenges aren't over when you have graduated. It is just another challenge as you enter the new battlefields.

Continue to set your goals high, and don't stop till you achieve them. Remember to never accept the status quo, always ask questions, be critical in your thinking, and always bring your true authentic self to every room and conversation. Change the world, but never be changed by the world.

We also pray that no fear sway you from your passion. Let wisdom, faith, and your heart guide you. Have faith in yourself, and you can be whatever you want to be and go wherever you want to go. Think it, pursue it, and you will be able to live it.

## **GMD school leavers message.**

Congratulations, graduates! You have come far, worked hard, and achieved your goal. Now go out there and make your mark in the world. This is a huge step toward your future, and I can't wait to see what becomes of it. I hope you will all come back and tell us, visit MYC, and share your experience and hard-earned wisdom with all the staff here.

Take time to celebrate as your hard work and determination has led you to this point. Now is the time to seize the future as you venture in a new normal as there are a number of opportunities available to all of you. We all look forward to hearing about your future successes and accomplishments.

As life gives you wings, always remember that no matter what you do and where you go, your parents are always there... looking out for you and wishing that all your dreams come true. We will miss you all. Take care.

Good luck,

Mr. Sugendran

**Oh, the places you will go! Congratulations on your graduation Batch 22/24**

When I look back on these years, it is the lesson that have learned in your classroom that I remember the most. Now, it's time to congratulate you for making it to your graduation! You couldn't have done it without support, guidance, and mentorship. It has been a privilege to watch you grow into the person you are today. Let your dream be your wings to carry you into the future. Nelson Mandela said 'It always seems impossible until it's done". Your graduation day is a proud day for you and a dream come true for our family. But graduation is not an end but a goal in itself; it is instead a part of the larger journey of life. Life is a journey, and all accomplishments you achieve during its course should be taken as starting points for further achievements. Your graduation should serve as such a launching point, projecting you to whatever your future is meant to take you whether you land yourself a career, take up a trade, or continue your education at college or vocational /technical school.

I used to go to school and enjoy myself with my friends, but not to study. I did like many of the subjects. So, I grasped the opportunity to enter MYC> The first day I came to MYC I knew hardly anything. I was very nervous. I was sad to leave home and live alone in Montfort. I survived the first three days but seriously I wanted to run away!

I managed to overcome my uneasiness to continue studying here. I counted to ten and told myself to be brave to take this challenge. I studied for my family also. Then after our first holidays, I felt a lot happier.

I would like to thank the Brothers, Teachers, and all the staff of MYC for their and for teaching me.

Before I came to MYC, I could not cope in school. I mastered the art of doing nothing in school: playing and sleeping! I thought there was nothing in my future because I did not study well in school. I stopped schooling at the age of 15. Then, I grasped the opportunity to enter MYC.

However, after I reached this Centre, I felt very lonely and miserable because I had no friends here. Then 2nd year boys urged me "Don't give up! Think far. You'll learn a skill here and can work later!" I felt better.

After two weeks, I made a few friends. I gradually learned Motor Mechanics skills and improved my English. When I first came I could not speak a word of English. In Montfort, we are always been told to speak in English. At first, it seemed impossible. Now I can speak in English.

I want to thank the Brother of St. Gabriel, my teachers, and all the staff of MYC for their care. You have all helped me to become a disciplined person. Thank you, Montfort. I'll always remember the words: "I must! I can!"

I am so glad for the opportunity I have had to improve myself. These two years of training have been a difficult experience which I will cherish deep down in my heart in the twinkle of an eye two years have passed.

It is time to leave I am happy but I want to say thank you to my guardian Brother Peter K and all the MYC staff. Without them, I would not have achieved my goal in my life. I am ready to face the world with confidence because I am sure the training, I have gone through will help me In the future. I thank all of you for your support and encouragement.

When I first came to Montfort Youth Centre I did not like the discipline, the food, the people, and everything at Montfort. I wanted to run away and I found a way to run away. Before I did I called my mom and told her that I wanted to run away. She told me to stay here and she motivated me to stay at Montfort until the end. I did not run and continue to stay at Montfort. I try to adapt to all the changes, things, and people at Montfort and I enjoy staying at Montfort.

2 years is going to be a long time but with the blink of an eye, 2 years have come to an end. There were many ups and downs but I managed to go through it all with the help of Brother Peter K, teachers, staff, and friends. With each problem I went through I learned something new and improved in myself.

After 2 years at Montfort, I learned to understand more about how the car works and got to learn the things that I loved the most. Thanks to Brother Peter who gave me the chance to study at Montfort and a second chance in life and I thank the GS teacher who helped me in my writing skills. All the instructors who have taught me about cars and computers. The SA Officers, have taught me discipline and the way to live in my life. I am completely burned with zeal that I got to study at Montfort and have spent my time learning with knowledgeable people. Thank you.

Times fly very fast. After going through difficult times, I have managed to finish my studies here. I would like to thank the MYC Staff, Student Affairs Officers, all instructors, and Brother Peter K. If without them 2 years will be wasted. I learn a lot here. Actually, I was doing good in my school, but I choose to come here because I wanted to improve more in my discipline and character. I learned to be truthful and honest and now I know uploading justice world makes a lot of people hate you.

John 15:18 teaches me not to worry about people who hate me. Before this, I did not even know how to perform a normal service for a car. Here they provide a lot of practical studies.

Lastly, I wish the best to all my friends and teachers. My God bless all of you. Good luck with your future.

My life is almost ruined in the past. By the grace of God, he showed me the right path to make a meaningful journey. I requested my mother to send me to a vocational school.

My mother asked for help from my uncle. A few days later, my uncle came and told my mother that is a school called Montfort Youth Centre, I joined the Motor Mechanic Department and I felt lonely and Sad during my early days in MYC.

After a few months, I adapted to the environment and to the rules and regulations of MYC. I would like to thank all my family members and Brother Peter K for giving me this opportunity. Thank You.

I used to go to school and enjoy myself with my friends and not to study. I did not like many of the subjects.

When I came to Montfort, I made good friends who like to study. I learn many things like being independent, respecting others, and speaking English at Montfort Youth Centre.

I want to thank Brother Peter's teachers and all the staff at MYC for their advice and encouragement during my two years here.

I am so glad for the opportunity I had to improve myself mentally and physically. The Montfort staff have been instrumental in every area of my success. My family says that they can see changes in me and are proud of me! I greatly appreciate everything that I have done together with the boys for these past two years. I wish to thank God and my parents. I will always cherish everything done at MYC.

First of all, I would like to thank my parents and Brother Peter K. For allowing me to study at Montfort Youth Centre. When I first entered Montfort Youth Centre, I thought this place was like a prison. There was no freedom for students as there were many rules and regulations. Four months later found that this place is beautiful and I felt that I was very lucky to study there. I started to enjoy the activities here.

Lastly, "Thank You to all the instructors who here helped me."

When I first stepped into MYC on 3/7/2022, I trembled with a big question in my mind: The unknown future at MYC. How would things go? But after a few months, I was no longer worried. At MYC, I learned know to be disciplined through the character formation programme.

I want to thank my MMD instructors Mr. Kamsani, and Mr. Razak for helping me to learn useful skills in motor mechanics.

First of all, I would like to thank Brother Peter K for giving me the chance to study at Montfort Youth Centre. Before I came to Montfort, I was a lazy person. I did not like to study. When my parents force me to go to school, I will argue and not go.

Secondly, I have less knowledge and discipline about life. But at MYC they have taught me discipline. A lot of things that we can do in Montfort to build up our character and to be more confident. I took this opportunity to study well even though I made mistakes many times.

I would like to thank Brother Peter K again for giving me this chance. I am so lucky that this golden opportunity was given to me. God Bless us all.

**"Don't Look behind"**

**Suganthan A/L Ganesan**

I have no interest in my studies. I get angry easily and like to pick a fight. I failed my PMR and stopped schooling. My family member was disappointed with me. I realized that I needed to give myself another chance and learn skills. I also learn about being disciplined by following the timetable set by the Student Affairs Officers. I have to become a better person.

I would like to thank Brother Peter K and my motor mechanics instructors, Mr. Kamsani, Mr. Razak, and Mr. Asanka for guiding me to complete my course.

One day, my mother told me that my brother does not want to study. He wants to work. He quarrelled with my parents and every day hanged out with his friends. Then my mother found out about "MBT" and told my brother to study there. My brother agreed to study at "MBT". After that, my mother informed me that after my brother graduates only then, I could continue my studies at "MBT". The choice was already made.

When my brother went to "MBT" I started to throw tantrums. I did not want to study and started to hang out with my friends. Smoking was my favourite pastime. After my parents knew that I smoking, they scolded me and I answered back to them. After that, my grandparents come and spoke to me. They told me that I should respect my parents.

Then, I spoke to my parents and ask for forgiveness. Then my parents found out about "MYC" without my knowing. They ask me if I wanted to study at this school and I said if the school teaches me skills and if I speak in English then, I could learn more things. Two years at "MYC", now I feel that I have achieved success and I have learned a lot skills like learning to speak in English, discipline and having a good attitude.

Lastly, I want to thank my parents for giving me and more chance in life that is to study at "MYC". I also want to thank Brother Peter K for giving me the chance to study at "MYC" and SA Officers who had taught me how to be more discipline and to have a change in my attitude. I would like to thank the GS staff for helping me to improve in English speaking skills. The IT staff who have giving me tons of knowledge in computer skills. I would also like to extend my gratitude to the Administration staff. I would not be "me" today if not study in Montfort. Thank You.

Firstly, I would like to thank Brother Peter K for giving me this opportunity to study at MYC. I would also like to thank sister, my teacher, and the staff who gave me knowledge in these two years. I would also like to thank the SA Officers and my second-year seniors for their encouragement. In addition, I would also like to thank Seu Teck Sean Tong the Buddhist Temple for sponsoring my studies for these two years.

Before I joined MYC, I was a very quiet and skinny person. My weight was less than 50 kg. After finishing my SPM, I was working in a hardware shop just for a few weeks. As of the covid 19 cases increased I had to stop working after that. One day, my father read in the newspaper about MYC and suggested I to do my studies at MYC. I could understand that my father was worried about my future. Because I am a person who hates to do theoretical studies. I do not have any chance to study at other colleges, because my family could not afford to pay high fees for my studies. My parent stopped working as they had an illness. So, my older brother who is working as a teacher in the secondary school supports them.

After I joined MYC, I learned computer skills, ICDL, leadership, communication skills, basic programming skills, and other skills. MYC staff have taught me and guided me as well. I improved my weakest language, Bahasa Melayu, and also improved my English language as much as could in these two years.

We just a blink does an eye, my graduation is coming soon. I would like to congratulate all my friends of Batch 22. We have achieved our target at MYC in these two years. I hope all of you can enjoy your own "real life" and continue gaining different knowledge. As for Batch 23 boys, I wish you all good luck in continuing your studies at MYC and have a good ending with precious memories of MYC.

Everyone here calls me "Chua", it is my surname. Why I here? I am here because in school, I was streamed to the Accounts Class, but gradually I found it was too tough. Then suddenly after three months, my mother "discovered" MYC. She encouraged me to come here and study IT. So I decided to stop school and come here.

Now I feel more disciplined, more patient, and more hard-working. This enabled me to complete two two-year courses easily. The biggest challenge that I had to overcome was being too quiet sometimes, especially with new or difficult people. At MYC, I have developed many good qualities in studying. I learned to get up early every morning and improve my speaking and writing in English.

I am very happy to have studied in the Information Technology Department. The It course has helped me to learn how to repair and service computers.

After studying for a few months in St. Louis Class, I could speak in English and Malay and I have also learned skills and improved my discipline here. I have changed a lot in my attitude.

I wish to thank Brother Peter K for giving me the opportunity to study at Montfort Youth Centre. I wish to thank all the staff of the IT department, all the Instructors, staff, SA Officers for helping me in every way. I am proud of myself for becoming a better person.

Thank you all of you.

It is my pleasure to have a chance to write my leavers message. These 2 years have been quite fast for me because I feel that everything has just happened in "Split Second"!

First, I started to become desperate after finishing my SPM. I could not find the right goal to further my studies. Then, my mother told me about Montfort and I found it was a good option. My life became more meaningful, and purposeful, and I had a target to achieve. I would like to sincerely thank Brother Peter. K who gave me this opportunity to study at MYC and I would also like to thank my family members who have supported me, especially my mom who recommended me to go to MYC after SPM.

Lastly, I want to thank all my IT Department instructors who struggled to teach me computer skills. All these struggles have made me to be a good computer technician. I will thank all GS department staff, all PCU staff, and all the SA staff who have taught me to become a good person in the future. I want also to take this opportunity to thank the Administration staff for their tireless efforts in seeking sponsorship. I believe my late mother is blessing me from above. Thank you.

I would like to thank my Pastor, Brother, Staff, and all the MYC boys who have helped me in this two-year journey at Montfort! I don't have any higher education since I left school when I was 12 years old. My Pastor sent me to Montfort to study when I was 17. I am a person who likes to fail. When we fail, we until learn more and won't be afraid to try to be what we want to do.

I started to become lazy and easily got angry after I stepped into my secondary school. I did not finish my homework at all. I failed all the subjects in the exam. I wanted to become an e-sport player. I only wanted to earn money by playing games. I became useless. I saw my attitude and she started to worry about my future. Then, my principal introduced Montfort Youth Centre to my mother. My mother brought me to visit MYC and she asked me to try to study here. I agreed before I knew the rules. After that, I regretted it. I could not use my handphone. I could not do this and that. I felt it was like a jail. I came in because of someone. When I first came to MYC, I was crying and crying. I was shouting and scolding people when I was angry. After so much counseling, I started to change myself, I started to change myself, I tried to be self-disciplined. During my first holiday at Montfort, the special "someone" left me, I was very sad and I did not want to come back to MYC again. Luckily, I came back. Event if it was very hard for me, I still came back. Now I almost gradating. I learned so many things at MYC. I learn IT skills, basketball, table tennis, badminton and so on. But, not only these. As I have been chosen as a prefect, I also learned about leadership, respect, patience and punctuality. I can control my anger very well now.

Lastly, I want to thank Brother Peter K, sister, SA Officers, all the instructors and those who always taught me, led me, guide me and always gave chances to me. Thank You, Brother, if you did not give me this chance, I'll remain useless until today.

First of all, I would like to thank Brother Peter K for giving me this opportunity to study at Montfort Youth Centre. I also want to thank all the departments for helping us with a lot of things.

Before I came to MYC, I stopped studying and went to work with my cousin. My grandparents wanted me to get a certificate for myself and I did not want to because I wanted to work and live on my own. At that time, my cousin suggested to me to go Montfort Youth Centre because his daughter had studied at Montfort Boys Town before. My grandparents kept telling me to get a certificate so that my future would be easier. Finally, I decided to study at Montfort Youth Centre.

Two years went just like a blink of an eye. I was fearful when I came to MYC for the first time. I was very shy to talk to others but in a place like MYC, it made me feel comfortable because the environment here is like my home town in Chiang Mai, Thailand. At first, I found chatting with other is quite difficult and what more making friends with others. Slowly, I could overcome it and everything became better when I started to follow the rules and regulations here.

Now, this is the time to say goodbye to this place which had taught me a lot of knowledge and had educated me to become a better person. I am very proud to say that I already know how to be independent.

I really so glad to Brother Peter K, and all the staff at MYC who gave me the opportunity to improve in my studies and life.

When I first came here, I cried and I told to my seniors that I wanted to go back home. My "big brother" came and advised me to study here. I begun studying hard and I passed my exams and I was given a special duty. I become the "Admin Boy" I learn many things at MYC, useful skills, for my job and also, I learnt how to support my friends.

I would like to thank God for giving me the support and skills. I wish to thank all the Instructor at MYC for helping me.

I came to study at Montfort because I was not interested to keep studying and I had no idea what to do in my future. I was thinking to learn some hard skills and to open my own business and my friends Moses Lee told me about Montfort Youth Centre.

When I came to Montfort, I did not have too many friends especially Indian friends. But after a few months I had a lot of Indian friends, and friends of other races too.

At Montfort I took up the *General Maintenance Course* and the centre has also prepared a lot of work for us to carry out and to learn from it. This is our practical training too. I have learned about keeping the house clean, looking tidy and performing kitchen duties, I am very happy that I could learn a lot of useful skills and have good friends at the same time.

I would like to thank Brother Peter K, my *GMD* instructor and all the Montfort staff and all the Montfort Boys. Without them Montfort would not be here. Thank you all for the support.

After my SPM I thought about my future. My mother and my family proposed me to continue my studies at Montfort Youth Centre. I also liked their proposal and agreed to studying at Montfort Youth Centre. I entered MYC I was very excited and very happy. I liked so much to study and participated in all the practical work here. I improve in my self-discipline and attitude at MYC. I feel like a better person in my life.

I would like to thank Brother Peter K and Mr. Joseph for giving me this opportunity to study at MYC. I take this opportunity to thank all my instructor and my fellow friends.

I feel very happy and thankful to MYC because I am going to complete my studies at MYC soon. I wanted to thank all the MYC instructor for giving me an opportunity to change my character and my attitude. I also want to thank Brother Peter K for giving the chance to study here. At MYC, I have learned many things which I cannot get outside. I would like to thank my family and my guardian Pastor Jacob for supporting me. I will not forget my memories at MYC in these two years.

Finally, I want to thank all the sponsors, donors and Administration staff.

In these two years, I learnt a lot things by knowing to differentiate good and bad. The good is the knowledge that I gained form the workshop and my friends. I have also learnt how to respect others and follow the instructions given by the SA and workshop teachers.

Lastly, I would like to thank Brother Peter K for giving me the opportunity to study here and my family members who have supported me during these two years.

Ho Sin Yuan

Hi! My name is Ho Sin Yuan. I would like to thank all the staff at Montfort Youth Centre, especially Brother Peter, Sister, all Instructors, Administration staff and all my friends. I thank the GS teachers for teaching me English. Now, I know how to read and write. I am proud to say that I have improved a lot. Thank you.

Kow Zhong Hong

On 3rd July 2022, I stepped into Montfort Youth Centre. I felt homesick and I was very scared and shy because I could not speak any English. I did not understand what people told me. After a few months, I slowly could follow and understand the rules and discipline here.

I want to thank everyone who has taught me and helped to guide me. I would also like to thank all the staff, sister, and Brother Peter K for giving me this opportunity.

I have learned skills and I have also, learned to solve my own problems. I am more mature now.

Te Hong En

First of all, I would like to thank Brother Peter, Sister, Staff, SA Officers and Instructors for taking care of me during these 2 years in Montfort. I am very grateful for your help. I have learned and improved a lot during these 2 years. I am happy to say that 2 years of studies at MYC has made me to be a good person. Thank you.

## THE NIGHTS

Once upon a younger year  
When all our shadows disappeared  
The animals inside came out to play  
Went face to face with all our fears  
Learned our lessons through the tears  
Made memories we knew would never fade

One day, my father, he told me, "Son, don't let it  
slip away"  
He took me in his arms, I heard him say  
"When you get older your wild heart will live for  
younger days  
Think of me if ever you're afraid"

He said, "One day, you'll leave this world behind  
So live a life you will remember"  
My father told me when I was just a child  
"These are the nights that never die"  
My father told me

# Lyrics : song by Avicii

"When thunderclouds start pouring down  
Light a fire they can't put out  
Carve your name into those shining stars"  
He said, "Go venture far beyond the shores  
Don't forsake this life of yours  
I'll guide you home no matter where you are"

One day, my father, he told me, "Son, don't let it slip away"  
When I was just a kid, I heard him say  
"When you get older your wild heart will live for younger days  
Think of me if ever you're afraid"

He said, "One day, you'll leave this world behind  
So live a life you will remember"  
My father told me when I was just a child  
"These are the nights that never die"  
My father told me

"These are the nights that never die"  
My father told me

My father told me
