STAFFS' MESSAGES

Dear School Leavers,

You are the MCO Batch, because from interview to orientation everything was done online.

Congratulations on completing this phase of your life! You have worked hard studying, learning and growing. As you prepare to leave MYC and embark on the next chapter of your life, I want to share some words of advice with you.

Firstly, remember that life is a journey, not a destination. It's important to set goals and work towards them, but don't get so focused on the end result that you forget to enjoy the process. Life is full of surprises, and sometimes the path you take will turn out to be otherwise. Always ponder on your decisions. Be open to new experiences, embrace the unknown and keep learning and growing.

Secondly, don't be afraid to make mistakes. Mistakes are part of life, and they can be valuable learning experiences. Use your mistakes as an opportunity to learn and grow, and don't let them hold you back from achieving your goals.

Thirdly, surround yourself with positive influences. Seek out people who encourage and support you, and who would share your values and aspirations. These people will help you stay motivated and focused on your goals.

Lastly, always be true to yourself. Don't compromise your values or beliefs to fit in or to please others. You are unique, and that's what makes you special. Embrace your individuality and use it to make a positive impact wherever you are.

As you go forth from this stage of your life, remember that you have the skills and abilities to achieve great things. Believe in yourself, be courageous, and never give up on your dreams.

Congratulations once again, and all the best for your future endeavours.

God bless all of you.

Bro. Peter K

Peace and Joy to all the Leavers of Batch 21

Congratulations to all leavers who have persevered to the end of your two years training in Montfort! I am proud of all of you!

I believe the two-year training was difficult, however two years is nothing if compared to a life's journey. Two years in Montfort was just a grasp of what life will be in reality and one may begin to believe upon realising and appreciating those experiences. Yet it will remain non sensible for those who see it otherwise.

I wish and hope all of you will take life seriously and joyfully because the life is yours! Therefore, be responsible and reasonable for any decision you are taking in life as it is vital. Give a chance to your consciousness to be connected with you when you are not sure on what to do with your life.

I believe the value of humility and simplicity contributed the most to your stay here in Montfort, otherwise you would not have made it to where you are now. Always remember to appreciate and to be humble in whatever comes in your way in the future.

“The power of presence is the real meaning of future and it clears the guilt of the past!”

Congratulations once again and God Bless all of you.

“Keep Moving Forward and Don’t Look Back”

The world has changed a lot, but one thing has not. Our commitment to your education remains strong.

It is a challenge to work by yourself; you will miss your classmates, you will miss your instructors, and you will miss Montfort.

But remember you are not alone. We are there for you every step of the way.

Working alone requires structure, tenacity, and grit. You will feel isolated and easily distracted; you will need ways to stay self-motivated. It is hard for you, and believe me, it is hard for everyone else.

Sometimes you will be having a bad day, and you will need to pick yourself up and keep moving forward-set goals. Learn to appreciate your success.

You are smarter than you know, braver than you imagine and more determined than you realize. Every day, try to do a little bit better than you did yesterday.

Tough times never last, but tough people do. It takes courage to keep trying. Every step you take, every day will move you closer to your goal. Believing you can is half the battle won. The more you learn, the more confident you will become.

Your biggest challenge will be staying focused and staying diligent about your learning. The assignments keep you moving forward. Slowly chip away at tasks.

I can help you think, and it’s up to you to learn.

Let’s not forget that every challenge and tough situation will bring us closer and wiser to loved ones and an appreciation as to why rules are needed and to guide you and teach you when you are out there in the working world. We have done our part in guiding you and it is up to you now to give back in service to society. We will want the best for you and all the best from SAD to your future.

I come from Kampung Ayer Salak, so studying at Montfort is a dream come true. I could easily adapt to the living environment here. I stopped going to school when I was 14 years old, and I started to work at a motor workshop. My uncle told me that I should have a certificate. It is very important, because I did not complete my studies. Then, I decided to study at Montfort Youth Centre. I chose Motor Mechanic studies because I have experience in repairing motorcycles.

I wish to thank Brother Peter and all the Montfort Youth Centre staff who have helped me to change and learn at Montfort. I have learnt a lot of other skills like baking and cooking skills as well. I have learnt barbering skills here at Montfort. My discipline and attitude is always positive. My ICT and English communication skills have improved a lot. My short life at Montfort Youth Centre is going to take me on a lifelong journey. Thank you.

#With God, Nothing is Impossible

Billy Lerry S Pelawi

After SPM, I was working as a construction worker for only around one year because my parents wanted me to continue my studies. I followed their wish and I continued my studies at MSOD but only for one year. I stopped my studies at this school because I am one who does not really like to do theoretical studies. My parent and teachers at MSOD discussed and suggested that I can study at Montfort Youth Centre. After a few months, I continued my studies here. Even though I took a Motor Mechanics course here, I have also learned many things other than repairing and servicing cars like welding and some basic IT skills.

I really want to thank my parents and Elder Steve's family for giving me their full support and trusting in my ability to learn Motor Mechanic skills at Montfort. I would like to thank Bro Peter K also for giving me the opportunity to continue my studies at this Centre. Not to be forgotten also, I want to thank all the MYC instructors and staff, past and present who always gave me support and motivated me. Lastly I wish the best of luck to the MYC Batch 21 boys! May God Bless You and be with you always.

I was not interested in studying at all. I did not have an idea what job I will be doing in the future. My mother told me about Montfort Youth Centre. I objected the idea to study at MYC. My mother started to force me and I had no chance to refuse.

I was very upset when I first came to this place. Every morning we needed to wake up early and we must be on time always. After a few months, I could follow all the rules and regulations and I could feel that I had improved a lot. I will be leaving this place as a new person.

I really want to thank Brother Peter K. who gave me the opportunity to study here and I wish to thank all the instructors, SA Officers both past and present, administrators staff and also my mother.

#‘Shoot for the moon and if you miss you still will be among the stars’

Horas Reinathan Sinnadurai

To all MYC Batch 21 Boys, Congratulations!!! We have gone through this challenge for two years together. Time passed so fast I am getting old too. Nevertheless, I have to wake up and face reality. We cannot change the past but we can create the future. [Yesterday is history, today is present, tomorrow is a mystery]. We only do our best for our future.

Prior to entering MYC I made many mistakes and faced many failures. When I was in school my teachers always told me that I had no future and some time my friends liked to compare and looked down on me. I took this as a challenge and I wanted to show them I can succeed too.

When I first came to Montfort, I felt I was at the wrong place. I felt like I was in hell. Slowly, I realized Montfort is a good place to build my character and discipline and saw my skills as well I tried my very best to adapt to the social environment in Montfort. It was hard and it took some time for me. I have learnt so many things especially in speaking English confidently. I have improved my language and motor mechanics skills as well. I also really enjoyed my time in Montfort.

I want to take this opportunity to thank my beloved parents my family members, Elder Steve's family and my friends who have supported me all the way. I also want to thank Brother Peter K. who gave me the opportunity to study in Montfort. Not to be forgotten the MMD instructors, General Studies teachers and all the SA officers past and present who gave me motivation and support. Thank you, Montfort Youth Centre!!!

There rules and regulations at Montfort troubled me. I would like to take this opportunity to thank my parents and my best friends for recommending me to study at MYC. I would also like to thank Brother Peter. K, my teachers as well as all the staff for encouraging me to try my best. Thank you all and God bless.

Before I came to Montfort, I was very naughty. Every day my parents worry about me because I got into a lot of problems outside school. When I was in form 4, I got the opportunity to study at Montfort Youth Centre. My mother advised me to stop at form 4 and to continue studying skills at Montfort.

After I came to Montfort, I learnt a lot of skills. I learned how to be disciplined and to control my anger. I improved a lot. When I went back for my first holiday break my mother was very happy because I had a change in my attitude. My mother always dreamt that I must achieve success in my life. After a few months my mother passed away. I felt so sad and had no mood to study. After that my father told me that I must finish my studies because it is my mother's dream. I continued studying to fulfill my mother's dream. Soon, I will finish my studies at Montfort Youth Centre.

Lastly, I would like to thank my family members, Brother Peter. K, Brother Robin and all the MYC staff for helping me to be a better person.

**#If you fall down, don't be sad. Stand up and walk again.
Don't worry, God will help us and May God Bless you.**

Nirmal Kumar A/L Kumarabalan

I have reasons why I needed to study at Montfort. When I was at home, I was very stubborn and was not listening to my mum. My studies at school was also bad and I had some bad influence so my mum decided to send me to Montfort.

When I came to Montfort, I thought I could freely use the handphone. During the interview they mentioned that I cannot. I was shocked. I missed my school friends a lot. But now I feel normal and I could study here and adapt to the lifestyle here.

First of all, I want to thank Brother Peter K. for giving me the opportunity to study at Montfort Youth Centre. I want to thank all the SA officers who took care of all of us every day and night. I want to thank the administration staff the workshop instructors, all instructors and the Pastoral Care Unit team for listening to my problems. If we study at Montfort our future will be bright. Please don't give up.

#'You can chain me, you can torture me, you can even destroy this body, but you will never imprison my mind'

Peter A/L Ramdan

When I first came to Montfort I felt sad because I was not mentally ready to study again. With the support and encouragement from my father and friends I decided to give it a shot. First of all, I want to thank Bro Peter. K for giving me the chance to study at Montfort. I want thank Capt. Sim (Bro. Edwin) for bringing me to Montfort. I want to thank all the instructors and all the staff who have taught me. I am grateful to the SA officers for doing a good job in taking care of us. Lastly, I want to thank my dear friends and my family for supporting me and trusting in my ability. #Take the risk if you want to be a successful person.

Rishi A/L Kalidash

I was a very furious person and got angry easily. After coming here and meeting new friends I have changed my character. Now, I can control my anger. When I was 15 years old I dropped out from school. After that, I went to work. After one year, I got the opportunity to study at Montfort Youth Centre.

I have learned many things. In Montfort I studied in the Motor Mechanics Department. I have learned how to speak in English, how to save money, how to respect others and how to be more responsible. I want to thank the SA Officers and all the instructors who have taught me. Somehow or other everyone has guided me and taught me.

This coming June my friends and I from Batch 21 are graduating. First of all, I want to thank Brother Peter K. because he gave me the opportunity to study at Montfort Youth Centre. I wish to thank the administration staff and everyone who has helped me.

Thank you, dear family members and my friends, for encouraging me in many ways. Good luck in your future and may God bless you.

Ruban Raj A/L Muragan

First of all, I would like to thank my family for sending me to Montfort Youth Centre. I like to thank Brother Peter. K for giving me the opportunity to study at Montfort.

When I first came to Montfort, I felt very sad and missed my family. After one month, I left my sadness and I slowly pushed myself to 'get up' and learn some skills. Before I came to Montfort, I could not speak English but now I can speak English. This is a great achievement for me.

My mother dreams for my success in life. I wish to complete my studies successfully and give my certificate to my mother as a present to her.

I would like to thank all the MMD instructors, all instructors, SA Officers, administrator staff and all who have helped me in some way or other. Lastly, my special thanks to Pastor Abraham who introduced me to MYC.

#Whatever problem comes In your life only you can be the solution.

Siow Wen Ming

I was working as a waiter in a cafe. I was not thinking about my future at all. One day, my father gave me a form and asked me to make a decision whether I wanted to continue my studies or just continue working in a café. I made the decision to continue my studies at Montfort.

I am really thankful for making that decision. Here, I learned how to discipline myself like becoming more punctual and doing housework. I have also learned how to bake cakes because I have a special duty as a Bakery boy. Besides that, I made so many friends, and I have learned more about the culture of the Indians, Orang Asli and Indonesian people.

Lastly, I want to thank Brother Peter K. for giving me the opportunity to continue my studies at Montfort. I also want to thank all the MYC instructors and staff. Thank you.

First, I want to thank my parents. Before I came to Montfort Youth Centre I like to modify and repair cars. My father asked me if I want to study at MYC I did not give a positive response. My father kept encouraging me to study at MYC and told me that I could learn many skills. After entering Montfort, I was very sad. After one month, I comforted myself. Every day, I tried my best to study. I am learning Motor Mechanics skills. At MYC I have learnt how to help people and to be self-discipline. I want to become a specialist in modifying cars.

I want to thank all my instructors and all staff for helping me. A special thanks to Bro Peter. K for believing in my abilities.

#Never dream for success, but work for it.

William Teng Kai See

I stopped studying at Form 1. I started working at a Motor Workshop. I had an enjoyable life. I was involved in illegal motor racing. When I was caught by a Malay policeman, he advised me to study at Montfort Youth Centre.

My parents spoke to me and I decided to study at Montfort. At first, I found this place very boring. After a few months, I could follow the course. I had a lot of responsibilities and I found my life to be interesting. I had a lot of things to do every day. I have become more confident and I have learned motor mechanics skills.

I wish to thank Brother Peter K., all the instructors who have taught me. I also wish to thank all the SA Officers, administration staff and everyone who have helped me. Lastly, I wish to thank my parents for their support.

First of all, I would like to thank Brother Peter K. for giving me this opportunity to study at Montfort Youth Centre. I would also like to thank the SA Officers past and present for their words of encouragement and guidance.

Before I joined MYC, I was working in a cafe which my uncle owned. I had completed my SPM but my results were not what I hoped for. My parents were worried of my future and they suggested I enrol at Montfort but I was hesitant to go because I was not very sociable. When I entered, I was shocked to see a lot of boys enrolling.

The first few days were grueling and my time management was out. But after a few months of living in MYC I have got used to waking up early and conforming to the daily routine.

Now two years have passed and I am going to be graduating soon. To all my friends in Batch 21 have a great life and continue increasing your knowledge. As for Batch 22, I wish you guys the best of luck in your studies and your stay in MYC.

Finally, I would like to thank all the instructors, staff and sisters who taught me through out these two years. I am grateful to everyone.

First of all, I would like to thank Brother Peter K. for giving me the opportunity to study at MYC. When I came here for the interview, I considered this place very boring and it was like a prison. But due to my mum's encouragement at last I agreed to come here to study.

The first month here I felt very homesick and I was struggling with the rules and regulations. After the first month, I started to put effort in my studies and tried to improve in my English. After two years, I have become a better person and I have learned a lot of skills and I am more disciplined. After graduating, I might continue my studies to get my diploma. I hope I can be a successful person in the future.

After two years being at Montfort Youth Centre, I feel very happy, more disciplined and more hardworking. The first time when I come to Montfort, I felt very homesick. A lot of people gave negative comments and said I will never succeed. I felt useless.

When I came to Montfort, I realized my talents and believed that I could achieve something. In Montfort I learnt many things like repairing computers and always speaking in English. I learn about the importance of being punctual, respecting others in the workplace and to be a more responsible person.

I thank Brother Peter for giving me the opportunity to study at Montfort. I thank all my instructors, and the IT staff for teaching me computer skills. I can handle the practical part of my studies but struggle a little with the theory. I thank all the instructors for teaching me Computer skills and also in helping me to improve in my English.

On the home side, I have met many friends who have helped me, especially Lim Shi Hao. I am very happy to study here. I have become more disciplined. I like to thank all the SA Officers who have taught all of us to be disciplined. I take the trouble to do my work well because of their reminders.

I like to thank my mother and my family because Montfort Youth Centre is a good place to study. Thank you.

#I must I can

Sharvin A/L Vijayandran

The first day, when I was at Montfort I was confused and I just followed whatever the seniors told me to do. On the second day I could not do the manual work. I was very homesick. I cried a lot. The Student Affair Officer, Mr. Cyril gave me some good advice. Day and night I cried because I had no mood to study at MYC. I felt two years was going to be a long time.

My mother continued to encourage me to study at MYC. I was very playful and I did not like to study from Form 1 until Form 4. I only had bad results. My mother suggested that I study at MYC. I was only interested in playing mobile games and I didn't care about my future and my goals in life. Now, everything has changed and I am prepared to face the world.

I want to thank the kitchen staff for teaching me cooking skills, the ITD staff for teaching me computer skills. I want to thank Brother Peter. K for giving me the opportunity to study at Montfort.

Thank you, all SA Officers, for taking care of me and guiding me. Thank you, my fellow friends, for encouraging me and supporting me to study. Now, I can speak English and write in English. Thank you to the GS Department instructors and all other staff of MYC, past and present.

I left school at Form 4 and then entered Montfort Youth Centre. I failed in my exams. I couldn't find my right goal in my future without SPM qualifications. Then, my mother told me about Montfort and I came here study.

When I first came to Montfort, I thought I could use my handphone at the hostel. Beyond my imagination MYC was like a prison with many rules and restrictions. Now, looking back, I couldn't believe that I have spent two years at Montfort Youth Centre. Slowly, I gave up my old ways and started to adapt to the new way of life until my graduation. I learned to discipline myself, learn more skills and most importantly to speak in English.

I would like to thank Brother Peter K., Mr. Joseph and Datuk Neo for giving me this opportunity to show my talents and to study at MYC. I would also like to thank all my IT instructors, all staff, other instructors and all Batch 21 students who have supported me during my journey here. Thank you.

My arrival to Montfort Youth Centre (MYC) was welcomed with a culture shock. There were a lot of rules and regulations. My mother encouraged me to come and study at MYC, but I felt that the rules and regulations will be very difficult for me to follow. Actually, I didn't like to study at all.

After being at MYC for a few months I learned a lot of things. At MYC there are many opportunities to allow you to learn new things. Here at MYC when you face problems you can see the counselors and share your problems with them. This place gives you the chance to know many friends of many races and religions. We work together and also make fun of each other.

Lastly, I would like to thank Bro Peter K., Sister, all the staff and the SA Officers for taking care of all of the boys and always creating activities to make our lives happy.

Prior coming to Montfort, I was a very stubborn person and I used to skip school. One day my father advised me to go and study at Montfort Youth Centre.

I was sad when I first came to MYC because I missed my family and all my friends. After studying for a few months, I managed to follow all the rules and regulations at MYC. As a GMD student I have learned useful skills which could help me in my future career. Most importantly, I am happy that I could speak in English now.

I want to thank my late father and Brother Peter K. for giving me this opportunity to study at MYC. I like to thank all my instructors, Sisters, staff and all my MYC friends for their help and support in my studies.

Prior coming to Montfort, I was very naughty. Every day my parents would worry about me because I got into a lot of problems outside school. Then, I came to Montfort. At first, I felt very sad as I missed my family and friends.

However, after a few months, I felt like I was in a very good place and only this place could help me to change and improve. I learned living skills and working skills. Before I came to Montfort, I didn't know a word of English. After coming to Montfort, I could speak in English and I learned new English words.

I take this opportunity to thank Bro Peter K. and all the MYC staff and instructors. I also wish to specially thank my mother and father.
